24' Yellowfin Bay Boat, Max 4 people

Half Day	\$600
Full Day Everglades, Gulf Wreck	\$900
4 Hour Live Bait Tarpon (in season)	\$650

Offshore/Reef Fishing

Water depths drop dramatically once boats venture beyond the main coral reef that parallels the Keys on the Atlantic side. Sportfishing boats fish anywhere from just beyond the reef, where winter months bring a wealth of kingfish and spectacular sailfish, to twenty-five to thirty miles out, where dolphin (mahi mahi) roam in the spring and summer.

Accessible from Hawks Cay on full day charters are the Humps, unique areas of sudden uprising on the ocean floor which cause nutrient upwelling that attracts bait fish which, in turn, attract big predators. Here, anglers battle slammer dolphin in spring and summer, tuna in the late winter and spring. Marlin may cruise these areas feeding on dolphin in season. Big amberjacks and sharks offer another challenge. Ask about Custom Swordfish Charters, the latest big fish option in the Keys.

If you prefer anchoring up and bottom fishing, our sportfishing boats offer reef and wreck fishing. The reef is only three or four miles offshore of Duck Key, so a half-day charter to the reef offers lots of fishing time after a short run. Anglers can battle feisty snapper and tenacious grouper, both of which provide delicious meals when the fishing is done. If catch and release is your thing, the reef offers sport species like sharks and barracuda.

We have seven Offshore/Reef charter boats. The **Tailwalker 2**, the **Tailwalker**, the **Final Final**, and the **Chelsey Lynn** are full cabin sportfish boats with air-conditioned cabins. **Snapshot** is a center console with a tower. Each of these boats takes a maximum of 6 people. The **Tailwalker 3** has an un-air-conditioned cabin and takes a maximum of 4 people. The **Eagle Eye** is a center consoles that take up to 4 people.

Other boats are available on an on-call basis, allowing us to accommodate large groups.

Flats and Backcountry

The vast amounts of shallow water on ocean side flats and on banks and flats throughout Florida Bay and the Everglades Park provide anglers with the unique experience of Keys flats and backcountry fishing.

Flats fishing with either fly gear or light spinning gear combines the experience of hunting and fishing, as you actually stalk and then cast to spectacular sport species like bonefish, permit and tarpon, often in water as shallow as a foot deep. Bonefish and permit provide long lightning-fast runs and tarpon offer leaps to amaze and challenge any angler. Full-day charters can get you to the Everglades Park where redfish and snook add to the possibilities.

If you prefer the action of general backcountry fishing, Florida Bay offers trout, sharks, barracuda, jacks and snapper. Introduce young anglers to shallow water fishing and enjoy the sights and the varied wildlife the backcountry offers.

Large tarpon ranging to over one hundred pounds migrate through the Keys each spring and early summer. Live bait trips, particularly around dusk, offer many anglers the best chance to do battle with the Giant Silver King. Beware: Tarpon season is very popular! Call ahead for your best booking opportunities.

The **Soc-Et-Tu-Um**, **Tarpon Time**, **I'm Hooked** and **Saltwater Experience** are shallow draft boats designed especially for flats and backcountry waters. Powered by fast outboards to get you to the fish, these shallow draft boats can be moved quietly by push-pole or trolling motor through "skinny water" once the engine is turned off. Moving quietly through shallow water, anglers see a wide variety of bird and sea life while fishing.

Other boats are available on an on call basis, allowing us to accommodate large groups.
